Manulife Philippines and Manulife China Bank Life Partner with AC Health to Advance Cancer Prevention Care for Filipino Families

MANILA, Philippines – Manulife Philippines and Manulife China Bank Life proudly announce their partnership with AC Health, a leading integrated healthcare network in the Philippines committed to providing accessible, affordable, and quality care through its clinics, hospitals, retail pharmacies, and pharmaceutical distribution arms. The partnership, which aims to educate Filipinos on cancer prevention and help improve access to comprehensive cancer care, combines Manulife's ambition to become the most trusted partner for health, wealth, and longevity for our customers with AC Health's expertise in cancer prevention, treatment, and survivorship.

"At Manulife, we believe that prevention and early detection are essential to helping Filipinos live healthier and better lives," said **Rahul Hora, President and Chief Executive Officer, Manulife Philippines**. "Our [Asia Care Survey](#) found that cancer remains one of the most feared diseases among Filipinos. This partnership with AC Health, which will provide cancer awareness, diagnosis and preventive programs, easier access to referral and care pathways, allows us to provide our customers with meaningful access to trusted cancer care."

Through ManulifeMOVE, Manulife Philippines' flagship holistic health program, customers will have access to cancer awareness programs and defined care pathways for cancer prevention and management offered by AC Health's Healthway Cancer Care Hospital (HCCH). Customers can access information on ManulifeMOVE for a full spectrum of cancer care programs delivered by HCCH, from early detection and prevention services to Cancer Concierge support, case management, treatment planning, and second opinion consultations. They can also secure discounted screening packages nationwide, including FIT tests for colon cancer and screenings for cervical, lung, and breast cancer.

"AC Health is committed to making world-class cancer care accessible to more Filipinos," said **Paolo Borromeo, President and Chief Executive Officer, AC Health**. "Through the Healthway Cancer Care Hospital and our nationwide network of hospitals and clinics, we

continue to provide comprehensive, patient-focused support. This partnership with Manulife enables us to reach even more Filipino families, empowering them to take charge of their health through early detection and high-quality care."

"This collaboration with AC Health will enable us at MCBL to bring cancer awareness, preventive screening, and access to care closer to our customers from China Bank and China Bank Savings. Now more than ever, this scale matters," said **Amy Gochuico, President and Chief Executive Officer, Manulife China Bank Life**. "It allows us to help normalize preventive health conversations across the country, and strengthens our ability to walk alongside our customers—not only when claims are made, but long before—through education, prevention, and guidance."

About Manulife

Manulife Financial Corporation is a leading international financial services provider, helping our customers make their decisions easier and lives better. With our global headquarters in Toronto, Canada, we operate as Manulife across Canada, Asia, and Europe, and primarily as John Hancock in the United States, providing financial advice and insurance for individuals, groups and businesses. Through Manulife Wealth & Asset Management, we offer global investment, financial advice, and retirement plan services to individuals, institutions, and retirement plan members worldwide. At the end of 2024, we had more than 37,000 employees, over 109,000 agents, and thousands of distribution partners, serving over 36 million customers. We trade as 'MFC' on the Toronto, New York, and the Philippine stock exchanges, and under '945' in Hong Kong.

Not all offerings are available in all jurisdictions. For additional information, please visit [manulife.com](https://www.manulife.com).
