How FutureBoost Retirement works

Personalized and goal-oriented plan

Select your desired retirement age and determine the amount you need for a secure retirement. Our Financial Advisors can give you expert guidance tailored to your needs.

Automatic fund management

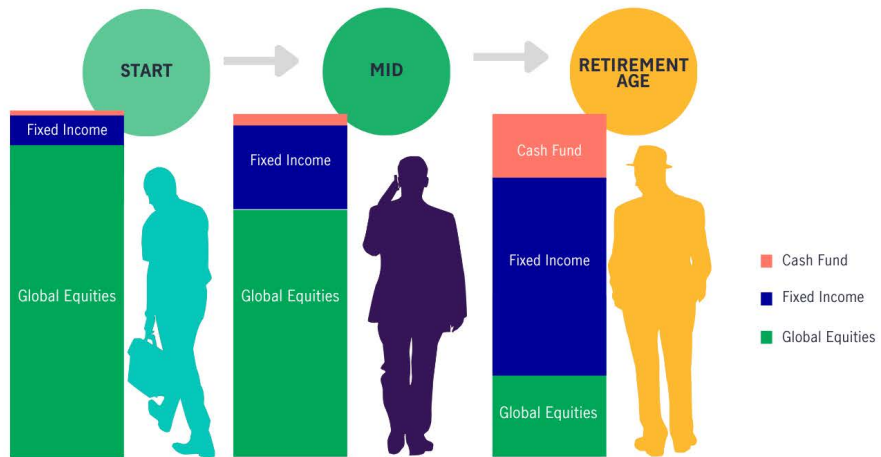

Choose to optimize your retirement fund's growth with our expert-led fund management, allowing you to maximize returns in the early years and minimize risks as you approach retirement age through automatic fund allocation.

Wealth Appreciation

In the early years, your portfolio is allocated in diversified equity funds with higher risk profiles and the potential for high returns, enabling your retirement fund to grow faster.

Capital Preservation

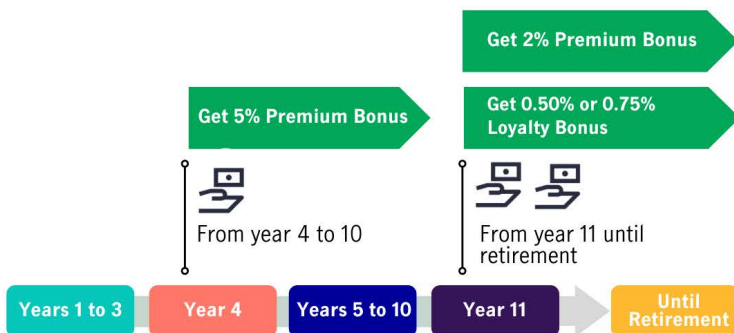

As your retirement date gets closer, your portfolio shifts to more fixed income funds, expected to be less volatile than equities, to generate a steady stream of income.
